(a) same r, different R0
r/γ = 0.2
r/γ = 0.5
r/γ = 1.0
r/γ = 2.0
R0 implied by the growth rate
Fractional order α
(b) same r: α shows only early on
α = 0.5
α = 0.7
α = 0.9
α = 1.0
Infectious / long-run exponential
Time, in units of 1/γ
